Summary:

Software developer bringing superior design and debugging capabilities, innovative problem solving skills with willingness to learn new things.

Education:

University of Southern California, Los Angeles, CA
Master of Science, Computer Science

Fall 2015

PSG College of Technology
Bachelor of Technology, Information Technology
Top 5% of class
CGPA : 3.85/4.0

May 2010

Technical skills:

Programming : C, C++, Java, HTML, JavaScript, Perl, VB .NET
Area of Interest : Networks, System programming and Object oriented approach
Operating System : Unix, Linux, Windows.

Accomplishment:

- Implemented Dispatch from Facebook, a prototype that is being considered now by Motorola Solutions
- Developed internal tools like Lab Monitoring Tool, Longevity test Monitoring Tool to automate mundane tasks that were quickly adopted by other developers.
- Was awarded with 'Moment' for my performance in 2012-2013

Professional Experience:

Software Engineer,
Motorola Solutions, Bangalore

August 2010 -
June 2013

- Designed and developed PCRF simulator used for QoS testing.
- Implemented Dispatch from Facebook .
- Involved in the development of Push to Email feature.
- Developed Lab Monitoring Tool that will alert users when a lab machine goes down.
- Was part of debugging teams for several other simulators which were in use at Motorola

Software Intern,
Wavesat, Bangalore

January 2010-
May 2010

- Implemented GUI and Command Line Interface for a customer premises equipment.
